Quality Search Personnel, Inc.

Quality Search Personnel, Inc. has been the premier recruiting and placement firm for packaging professionals since it's founding in November of 1981 by Jim Jeselnick. Throughout the years, Jim and his staff have placed hundreds of individuals for key user and supplier firms, many of them in the list of Fortune 500 Companies. Quality Search maintains contact with the Directors and Managers of client companies throughout the United States. These relationships, based on personal visits at their facilities and at trade shows like Pack Expo, have positioned Quality Search to provide instant feedback and help for packaging career searches. Jim has been an active member and past officer of IoPP. We work on career development, not just new jobs.
